DETAILED ACTION

Allowable Subject Matter

1. Claims 1-32 are allowed over the prior art of record as filed in the 09/02/2010 reply and in this Office Action.

The following is an Examiner's statement of reasons for allowance: the claims in this application have been allowed because the prior art of record fails to disclose either singly or in combination the claimed device of device for securing a line. The device includes a line retaining part and a base part, grooves configured to receive the line, complementary locking means between the line retaining part and the base part and flexible retaining means for retaining the line comprising a plurality of flexible parts.

The closest prior art of record is Smith (USPN 1,032,436); Beeman et al (USPN 6,438,802); Meyerrose (USPN 4,907,582); Choksi (USPN 4,820,274); and Coudrais (USPN 6,641,093). However, these references do not disclose the device as claimed or described above.

Regarding claim 1 and all claims depending therefrom, the closest prior art of record fails to teach among all the limitations or render obvious the grooves including a major longitudinal axis that corresponds to a major longitudinal axis of the medical line, each of said at least one grooves further including openings that open to an ambient environment at opposing groove sides, said openings and said groove sides being situated relatively parallel to said major longitudinal axis of said at least one groove, wherein each opening is disposed to face the other opposing opening along an axis

Art Unit: 3763

perpendicular to said major longitudinal axis of said at least one groove, and wherein said groove is configured to receive the line via at least one of the openings.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee, and to avoid processing delays should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
